Hi. I would like to move the attached clean versions of fact sheets to Sven first thing in the morning to start his review of the fact sheet. Okay? Regarding the attached lead fact sheet, I will ask Sven whether the congressional interest for lead was both dust and soil. Also for asbestos, I would like to send it to Sven acknowledging that I have an asked oppt whether there are any more recent asks from Congress (usually Sven would add those anyway). Please advise.

I'm ok with removal but agree it would be good to check what the ask was.

Yes. Interested to see if Nancy and Erik ok with that edit. We may want to firm up with Sven if Congressional interest was explicit on both dust and soil.

Hi,

Do you mean:

Past Congressional interest was focused on concerns with implementation and costs for contractors associated with the 2008 RRP rule and interest in EPA moving forward with revising the hazard standards for lead in dust and soil.

James
